

Special Issue

Selected Papers from MARTECH 2022, the 6th International Conference on Maritime Technology and Engineering

Message from the Guest Editor

MARTECH 2022 was the 6th Edition of the international conference that followed 11 editions of an earlier National Conference. It received a total of around 200 abstracts, from which 136 papers were finally accepted and presented, together with four keynote presentations. As in the previous editions, the proceedings were published in book format; however, there may still be scope for a Special Issue of *JMSE* based on this conference, as the keynote presentations were not included in the proceedings, and there was a substantial number of abstracts that were accepted but whose paper version could not be completed in time to be considered for publication in the proceedings. In addition, several papers that presented the initial results of a more extensive, ongoing study may be able to serve as the source for follow-up or expanded papers to be considered for publication in this Special Issue of the journal. Thus, you are invited to submit papers for this Special Issue, which has the same broad coverage as the conference.

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
