

Special Issue

Advanced Studies in Marine Natural Products

Message from the Guest Editors

The ocean is the source of life, which is a potential treasure for the development of new drugs. Marine life, which includes marine-derived microorganisms, plants and animals, has emerged as an important resource for bioactive natural products due to its comparable unexploited and unique living environment, such as high pressure, high salt, lack of nutrition, etc. For decades, lots of marine natural products (MNPs) with various bioactivities have been discovered and contributed to the field of biomedicine, nutraceuticals, cosmetics and agroforestry production. In order to display the contribution and potential of MNPs in improving people's health and quality of life. We are honored to launch this Special Issue and invite the submission of research papers or reviews focused on *Advanced Studies in Marine Natural Products*, including the following aspects:

- Novel and bioactive MNPs from marine life;
- New strategies or biotechnologies for the discovery of lead compounds in marine drugs;
- Biosynthesis of bioactive MNPs and/or their biotransformation;
- Total synthesis and/or modification of MNPs;
- Research and application of marine biomacromolecules.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
