Special Issue

Ocean Ambient Sound Monitoring

Message from the Guest Editor

Ocean ambient sound plays vital roles in shaping marine acoustic environments. With the growing intensity of human maritime activities, continuous monitoring and assessment of ocean noise have become essential for understanding its ecological impacts and guiding effective mitigation strategies. This Special Issue welcomes studies on underwater acoustic measurements, data analysis, modeling, noise source identification, and innovative monitoring technologies that advance the understanding and management of ocean soundscapes.

Message from the Editor-in-Chief

The Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
