

Special Issue

Computational Fluid Dynamic of Floating Offshore Structures

Message from the Guest Editors

Maritime safety is a critical aspect of the shipping industry, and advancements in technology have facilitated new opportunities to enhance safety measures. The Special Issue will focus on, but is not limited to, the following topics:

- Smart shipping navigation systems and their role in ensuring safe vessel operations;
- Vessel traffic services and their contribution to maritime safety management;
- Integration of artificial intelligence, Internet of Things (IoT), and machine learning techniques in maritime safety;
- Development and implementation of autonomous marine vehicles and their impact on maritime safety;
- Risk assessment and management in smart shipping navigation and vessel traffic services;
- Cybersecurity challenges and solutions in smart shipping and vessel traffic management;
- Case studies and practical applications of smart shipping technologies for maritime safety.

Guest Editors

Prof. Dr. Ling Qian

Dr. Yang Yang

Dr. Harrif Santo

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
