

## Special Issue

# Multidisciplinary Approaches to Sustainable Construction and Marine and Coastal Development

### Message from the Guest Editors

The construction and marine and coastal development industries are facing significant challenges in ensuring sustainability, resilience, and environmental protection. To address these issues, a multidisciplinary approach is needed that combines the expertise of engineers, architects, environmental scientists, and other stakeholders. The proposed Special Issue aims to showcase recent advances in research and practice related to sustainable construction and marine and coastal development. It will provide a platform for sharing and disseminating cutting-edge research and practice in these fields, and help to promote collaboration and knowledge exchange between experts from different disciplines and sectors, contributing to the development of more sustainable, resilient, and environmentally friendly coastal zones.

### Guest Editors

Dr. Chiemela Victor Amaechi

1. School of Engineering, Lancaster University, Lancaster LA1 4YW, UK
2. Department of Construction Management, Global Banking School, Devonshire Street North, Manchester M12 6JH, UK
3. Institute of Energy Infrastructure, Universiti Tenaga Nasional (The National Energy University), Jalan IKRAM-UNITEN, Kajang 43000, Selangor, Malaysia

Dr. Ahmed Reda

School of Civil and Mechanical Engineering, Curtin University, Bentley, WA 6102, Australia

### Deadline for manuscript submissions

closed (30 October 2023)

## About the Journal

### Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE*, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

---

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
