

Special Issue

Frontiers in Marine Animal Telemetry Research

Message from the Guest Editor

This Special Issue focuses on telemetry methods to investigate various aspects of the biology of marine animals. Recent advances in animal telemetry have led to greater understanding of interactions of marine animals with their physical and biological environment and the role of these interactions in shaping the physiology, habitat use, large-scale movements and behavior of these animals. For example, understanding of drivers of spatial ecology, interactions with humans and response to warming oceans for oceanic marine animals are all still emerging and challenging fields. We invite researchers to submit articles that advance understanding of large and small-scale movements, habitat use, and physiological measures of marine animals either in wild or captive settings.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
