

Special Issue

Marine Harmful Algae II

Message from the Guest Editor

Following the success of the first edition of the Special Issue "Marine Harmful Algae", this second one aims to promote and publish new findings and new technologies on all types of research related to marine harmful algae.

Topics of interest include but are not limited to the following: The distribution, biodiversity, and phylogenetic studies of harmful algae;

The occurrence, ecology, physiology, and toxicology of harmful algal blooms;

The control and mitigation of harmful algal blooms;

Toxin production and ichthyotoxicity of harmful microalgae;

Allelopathic interactions between harmful algae and other microorganisms;

Applications of marine harmful algae;

Molecular mechanisms and omics research on harmful algae;

Rapid identification methods for harmful microalgae.

Monitoring and control of harmful algae

Harmful algal blooms forecast system. Research and review articles, as well as case studies, regarding recent advances related to marine harmful algae are welcome.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
