

Special Issue

CFD Analysis in Ocean Engineering

Message from the Guest Editors

To accommodate our ever-increasing energy needs, the exploration of oil and natural gas is marching towards the deep sea and tremendous efforts have been made towards developing viable renewable energy sources from the ocean, including wind, tidal current and waves. It is utterly important and challenging to guarantee the safety of offshore structures constructed in the ocean for the purpose of extracting resources and energy from the deep sea. Computational Fluid Dynamics (CFD) is playing an increasingly important role in fundamental and applied research in ocean engineering. This Special Issue aim to collect articles that highlight the research in ocean engineering though CFD analysis. It covers a variety of topics including, but not limited to, wave dynamics, tidal current, offshore fluid–structure interaction, wave and tidal energy and ship hydrodynamics. Papers that report new research methods, fundamental fluid mechanics or applied research outcomes in relevant areas are welcome.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
