## Sustainable Coastal Management

### Message from the Guest Editors

In the present Special Issue, we aim to address the theme of “Sustainable Coastal Management” from a multitude of complementary sub-themes that take into consideration the adaptation and sustainability of natural coastal resources and built environments. The Special Issue welcomes submissions on the field of sustainable coastal management research addressing, but not limited to, the following topics:

- Sustainable coastal management;
- Definition and evaluation of coastal management sustainability indices;
- Climate change-adaptation planning and management of coastal zones;
- Integral coastal management and planning;
- Marine spatial planning;
- Coastal engineering and ecosystems;
- Nature-based solutions for coastal zones;
- Innovative coastal engineering;
- Socioeconomic impacts and risks on vulnerable coastal zones;
- Coastal risk assessment and reduction;
- Coastal vulnerability;
- Resilience of coastal zones;
- Remote sensing applied to coastal management;
