

Special Issue

Feature Papers in Marine Environmental Science

Message from the Guest Editor

This Special Issue of the *Journal of Marine Science and Engineering*, Section Marine Environmental Science, aims to publish original research papers and reviews on the topic of Feature Papers in Marine Environmental Science. Given the complexity of current issues impacting the marine environment, a compilation of relevant papers and reviews is very important in helping to guide further research and helping environmental managers and the public at large to make better decisions regarding the marine environment. Sea-level rise, ocean warming, acidification, urbanization, land-use changes, etc. are processes impacting the marine environment, and the connections between biological, abiotic, and human factors are currently being explored. Submissions may address the following or related topics in the marine environment, including the open oceans, estuaries and other coastal areas, and coral reefs:

- Sea-level rise
- Acidification
- Overfishing
- Coastal management
- Urbanization
- Land use change effects on coasts and estuaries
- Coastal and ocean governance
- Biodiversity loss
- Deep-sea mining
- International cooperation programs
- Coastal and ocean resiliency

Guest Editor

Prof. Dr. Gerardo Gold Bouchot

Department of Oceanography and Geochemical and Environmental Research Group (GERG), Texas A&M University, College Station, TX 77843, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
