

Special Issue

Offshore Renewable Energy, Second Edition

Message from the Guest Editors

Offshore renewable energy is an abundant clean energy source. Its development and utilization will be beneficial for the development of a low-carbon economy and the achievement of energy-saving and emission reduction goals. It can achieve a complementary energy supply between land and sea, easing the pressure on conventional fossil energy resources in economically developed and energy-intensive coastal areas. The development of offshore renewable energy is a long-term process, but it is worth noting that, with the development and gradual maturity of various technologies, offshore renewable energy will be a mainstream new energy resource in the future. This Special Issue will provide updates regarding the development and utilization of offshore renewable energy. Potential topics include, but are not limited to, novel concepts, control strategies, modelling methods, intelligent equipment and monitoring technology applications.

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
