

Special Issue

Research on Marine Mammals Acoustic Ecology

Message from the Guest Editors

Research on the acoustic ecology of marine mammals is ever growing. It is imperative that we gain a greater understanding of their acoustic ecology given the many threats that they face in our coastal and offshore waters, especially now as we navigate such challenging and changing times. Examples of these threats include increasing noise from vessel activity and, in some areas, noise and displacement due to renewable energy developments. The purpose of this Special Issue is to publish a recent collection of papers dealing with advances in research focused on the acoustic ecology of marine mammals. High-quality papers related to various aspects are encouraged for publication directly, as mentioned below. Novel techniques for the study are encouraged.

- Topics—acoustic ecology of marine mammals
- Acoustic behaviour
- Effects of noise
- Threats to their acoustic ecology
- Case studies
- Monitoring techniques
- Modelling

Guest Editors

Dr. Joanne O'Brien

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering and The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
