

## Special Issue

# Innovative Development of Offshore Wind Technology

### Message from the Guest Editors

We are inviting submissions to a Special Issue in *Journal of Marine Science and Engineering* on “Innovative Development of Offshore Wind Technology”. Offshore wind resources are abundant, yet there are much more complicated technological issues related to design, installation, operation, maintenance, lifetime extension and decommissioning, compared to onshore wind. Nowadays, offshore wind has been rapidly evolving with the aim to deploy larger wind turbines at deeper water depths and in more complex and extreme environmental conditions. Challenges arise when it comes to innovative wind turbine and foundation designs, reliable and optimized installation methods, and cost-effective operation and life-cycle maintenance. Furthermore, there has been continuous progress in wind farm optimization, control strategies, structural health monitoring, simulation methods, model tests, dynamic analyses as well as new materials. Therefore, we provide this Special Issue as a multidisciplinary forum for discussions on innovative development of offshore wind technology, and invite authors to contribute their latest studies, findings, and ideas to this Special Issue.

### Guest Editors

Dr. Tianhui Fan

School of Civil Engineering and Transportation, South China University of Technology, Guangzhou 510641, China

Prof. Dr. Muk Chen Ong

Department of Mechanical and Structural Engineering and Materials Science, University of Stavanger, Stavanger, Norway

### Deadline for manuscript submissions

closed (15 June 2024)

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei  
Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean  
Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 15.6 days after  
submission; acceptance to publication is undertaken in 1.9  
days (median values for papers published in this journal in  
the first half of 2025).
