# Study on the Performance of Wave Energy Converters

### Message from the Guest Editors

Dear colleagues, Ocean wave energy converters (WECs) have emerged as a promising technology for harnessing renewable energy from the vast resources of the ocean. This Special Issue aims to explore various aspects related to the performance of ocean wave energy converters. The topics of interest include, but are not limited to:

- Design and optimization of WECs;
- Performance evaluation and monitoring;
- Wave resource assessment;
- Control and operation strategies;
- Environmental impact assessment

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei  
Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean  
Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 15.6 days after  
submission; acceptance to publication is undertaken in 1.9  
days (median values for papers published in this journal in  
the first half of 2025).
