

Special Issue

Navigation and Localization for Autonomous Marine Vehicles

Message from the Guest Editor

Marine robotics aims to design and develop systems, as well as to provide support to their operation, for scientific research and commercial applications. Recent advances in miniaturized sensors, energy-efficient actuators, and low-cost embedded computer systems are impacting the development of autonomous, remotely operated, and hybrid marine vehicles. Current technology is also enabling the operation of multiple marine vehicles working in cooperation by exploiting the availability of increasingly sophisticated technologies for underwater communication networks. At the core of this trend, navigation and localization of autonomous marine vehicles are key for the suitable and reliable development of missions at sea. Therefore, this Special Issue is focused on collecting the latest experiments, applications, advances, and challenges related to navigation and localization of autonomous, surface and underwater, marine vehicles.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
