Celebrating the 110th Anniversary of Hohai University: Invited Papers for Coastal Engineering

Message from the Guest Editors

As 2025 marks the 110th anniversary of Hohai University, I am honored to invite you to submit high-quality and impactful manuscripts showcasing your research in coastal engineering for this special occasion in the Special Issue entitled “Celebrating the 110th Anniversary of Hohai University: Invited Papers for Coastal Engineering”. This issue is dedicated to celebrating Hohai University’s remarkable contributions to education and research in coastal and water-related disciplines. We welcome manuscripts addressing a broad spectrum of topics within coastal and offshore engineering, including but not limited to:

- Coastal hydrodynamics and sediment transport;
- Design, analysis, and monitoring of coastal structures;
- Shoreline erosion and protection measures;
- Estuarine and tidal processes;
- Offshore foundation engineering, including liquefaction, shear sliding, and slope stability analysis;
- Submarine landslides and their impact on offshore structures;
- Climate change impacts on coastal and offshore systems;
- Marine renewable energy systems (e.g., wave and tidal energy);
- Coastal disaster prevention, resilience, and adaptation strategies.

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
