

Special Issue

Nutrition and Immunity for Sustainable Marine Aquaculture Development

Message from the Guest Editors

This Special Issue on “Nutrition and Immunity for Sustainable Aquaculture Development” is designed for the publication of investigations related to the nutrition and immunity of all cultivated aquatic animals. “Nutrition and Immunity for Sustainable Aquaculture Development” considers studies on nutritional biochemistry, physiology, and immunity of cultured aquatic animals that may facilitate sustainable aquaculture development. This Special Issue also considers manuscripts in relation to the development of functional feed for immunity regulation of aquatic animals, specific vaccines, and innovative prophylactic approaches against diseases, which promote sustainable aquaculture. The aims and scope include:

- Increasing basic knowledge of the nutritional requirements of aquaculture species;
- Improving our understanding on the immunity of aquaculture species;
- Strengthening the relationships between nutritional management and processing, product quality, ecological risk assessments, and the consumer.

Guest Editors

Prof. Dr. Fan-Hua Nan

Department of Aquaculture, National Taiwan Ocean University,
Keelung, Taiwan

Dr. Po-Tsang Lee

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
