

Special Issue

Editorial Board Members' Collection Series: Marine Renewable Energy and Sustainability

Message from the Guest Editors

The marine environment is currently being assessed as a potential energy source. Indeed, different phenomena can be successfully harvested as energy sources, including:

- Sea wave;
- Ocean current;
- Tides and tidal current;
- OTEC (ocean thermal energy conversion);
- Biomass cultivation;
- Saline gradient.

In this context, this Topical Collection is open to:

- The proposal of new technologies for the exploitation of marine energy;
- Energy assessment case studies;
- Marine impacts due to energy harvesting;
- Economic and environmental analyses.

We cordially invite you to submit high-quality papers to this Topical Collection. Papers submitted to this Topical Collection will be peer-reviewed by leading international researchers. Accepted papers will be published continuously in the journal (as soon as accepted), and will be listed together on the Topical Collection website. Research articles, review articles, as well as short communications are invited.

Guest Editors

Prof. Dr. Theodoros D. Tsoutsos

Renewable and Sustainable Energy Systems Lab, School of Chemical and Environmental Engineering, Kounoupdiana Campus, Technical University of Crete, 73100 Chania, Greece

Dr. Domenico Curto

Department of Engineering, University of Palermo, 90128 Palermo, Italy

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
