Coastal Wetland Management, Restoration and Conservation

Message from the Guest Editors

Coastal wetlands are threatened by and are experiencing losses due to erosion, land claim, sea-level rises, climate change and anthropogenic activities. A number of management and engineering schemes have been implemented to compensate for these losses, such as replanting, construction of sedimentation-enhancing structures, and breaching flood defenses and embankments through managed realignment. Whilst a relatively small number of these schemes have been studied extensively, there remains a lack of understanding of the longer-term evolution of these schemes and the advances required to improve design and implementation. We invite submission from across the spectrum of coastal wetland management, restoration and conservation methods, and from a range of techniques (field observation, geospatial, modelling) and disciplines (e.g., ecology, biology, geomorphology, hydrology and engineering).

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
