

Special Issue

Selected Feature Papers in Ocean Engineering

Message from the Guest Editor

Ocean engineering is an important field of engineering. Its scope is wide-ranging, dealing with ocean energy systems, oil and gas systems, subsea systems, aquaculture, and more. The harsh marine environments in which ocean engineering structures are located can jeopardize the safety of these structures. However, such environments give us the opportunity to extract energy from environmentally friendly ocean energy resources, including wind, tidal, and wave energy. Therefore, this Special Issue will collate numerical, experimental, and analytical studies that cover a wide range of topics related to ocean engineering, including, but not limited to, the following:

- Fixed and floating offshore platforms;
- Offshore wind energy systems;
- Tidal energy systems;
- Wave energy converters;
- Floating PV systems;
- Subsea cables and mooring lines;
- Subsea pipelines;
- Aquaculture.

Guest Editor

Prof. Dr. Erkan Oterkus

Department of Naval Architecture, Ocean and Marine Engineering,
University of Strathclyde, 100 Montrose Street, Glasgow G4 0LZ, UK

Deadline for manuscript submissions

25 November 2025

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
