

Special Issue

Selected Feature Papers in Ocean Engineering

Message from the Guest Editor

Ocean engineering is an important field of engineering. Its scope is wide-ranging, dealing with ocean energy systems, oil and gas systems, subsea systems, aquaculture, and more. The harsh marine environments in which ocean engineering structures are located can jeopardize the safety of these structures. However, such environments give us the opportunity to extract energy from environmentally friendly ocean energy resources, including wind, tidal, and wave energy. Therefore, this Special Issue will collate numerical, experimental, and analytical studies that cover a wide range of topics related to ocean engineering, including, but not limited to, the following:

- Fixed and floating offshore platforms;
- Offshore wind energy systems;
- Tidal energy systems;
- Wave energy converters;
- Floating PV systems;
- Subsea cables and mooring lines;
- Subsea pipelines;
- Aquaculture.

Guest Editor

Prof. Dr. Erkan Oterkus

Department of Naval Architecture, Ocean and Marine Engineering,

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
