

Special Issue

Advances in Ship Waves Modelling

Message from the Guest Editor

In the present Special Issue, we aim to collect pioneering research studies toward modelling-induced waves by floating structures mathematically and experimentally. The scope covers hydrodynamic modelling of fluid flow around marine structures and evaluation of the performance of marine structures. Parametric geometrical modelling (CAD/CAM) and geometry optimization using artificial intelligent algorithms will be appreciated in this Special Issue. Moreover, the development of computational codes with high fidelity in hydrodynamic analysis of marine structures is in the scope, as is the application of top-notch computer programming into the computational code. Our goal is to gather hydrodynamic models which take advantage of advanced techniques in computational fluid dynamics. Moreover, advanced potential flow models are of interest in this Special Issue.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
