

# Special Issue

## Waves and Ocean Structures II

### Message from the Guest Editors

In this 2nd-year of the Special Issue we continue to collect contemporary papers with topics including, but not limited to, interactions between waves and ocean structures. The wave theory can include effects from ocean structures. Various ocean structures can be included, such as fixed, movable, porous, flexible, free-floating, or with moorings. We are particularly interested in coupling between waves and structures emphasizing effects on wave fields or motions of the structure. As for the research methodology, it can be analytical, numerical, or in situ data analysis. New findings are especially welcome. With the increasing development of natural energy such as solar, current, or wave energy, new types of ocean structures interacting with ocean waves could also be interesting topics. We encourage you to continue contributing to this Special Issue, and helping this Issue successful.

## About the Journal

### Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE*, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

---

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

---

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Oceanography) / CiteScore - Q1 (Ocean Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2026).
