

Special Issue

Benthic Biology and Biogeochemistry

Message from the Guest Editors

Benthic organisms play a key role in modulating the biogeochemical reactions taking place at the sediment–water interface and in the upper sediment column of the seafloor. Benthic biogeochemical patterns and processes are highly heterogeneous in both time and space. They are underpinned by complex interactions between environmental forcing, benthic habitat structures, species, and functional compositions of biological communities and by resulting biological processes. The invited Special Issue will publish high-quality papers aiming at assessing the effects (from the micro- to the ecosystem scale) of spatial and temporal changes in benthic biological community structures and activities on key sedimentary biogeochemical processes. Developments and utilizations of innovative techniques will be especially encouraged.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
