Bioaccumulation and Biomarkers Responses in Aquatic Organisms

Message from the Guest Editors

Measuring the bioaccumulation of contaminants and biomarker responses in aquatic organisms offers a great aid for providing useful information to environmental monitoring programs and environmental risk assessment. The purpose of this Special Issue is to select and publish high quality and impactful research articles on bioaccumulation, biomagnification, behavior and exposure biomarkers in aquatic organisms. Original and high quality research related to the various aspects mentioned previously is encouraged.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.
