

## Special Issue

# Coastal Hazards Related to Water

### Message from the Guest Editor

This Special Issue will build on the very successful JMSE issue "Coastal Hazards Related to Storm Surge", and is envisioned as a forum for documenting advances in the state of the art in water-related coastal hazards associated with severe storms, whether attributable to storm surge, surface waves, or precipitation-based flooding. Contributions are encouraged in topics including:

- improved understanding of coastal hazards;
- improved coastal hazard predictive capabilities;
- hydrologic, surge, and wave models, particularly coupled models;
- climatic and relative sea level change influences on coastal hazards;
- coastal hazards statistics;
- improved solution algorithms for coastal hazard models, particularly for new computer architectures;
- deterministic or probabilistic event-based forecasting;
- novel solutions for coastal hazard reduction;
- quantifying the effectiveness of nature-based coastal hazard reduction;
- surrogate modeling of coastal hazards, and
- process-based and applied studies.

---

### Guest Editor

Prof. Dr. Rick Luettich

Institute of Marine Sciences, University of North Carolina at Chapel Hill,  
3431 Arendell Street, Morehead City, NC 28557, USA

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei  
Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean  
Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 15.6 days after  
submission; acceptance to publication is undertaken in 1.9  
days (median values for papers published in this journal in  
the first half of 2025).
