

# Special Issue

## Advances in Marine Structures

### Message from the Guest Editor

Structural mechanics is an important field of engineering. Depending on the usage of the structure and the conditions that it is subjected to, different special treatment is required during analysis. Specifically, marine structures are subjected to harsh environmental conditions due to the marine environment, which can cause several different damage mechanisms, including damages due to fatigue and corrosion. This Special Issue on “Advances in Marine Structures” will consider a wide range of areas related to marine structures, including but not limited to:

- Structural analysis of ship structures;
- Structural analysis of offshore platforms;
- Structural analysis of naval vessels;
- Structural analysis of pipelines and subsea systems;
- Risk- and reliability-based approaches applied to marine structures;
- Structural health monitoring of marine structures;
- Corrosion;
- Ice-structure interactions;
- Collision mechanics;
- Inspection and repair of marine structures;
- Fatigue and fracture;
- Marine composites.

---

### Guest Editor

Prof. Dr. Erkan Oterkus

Department of Naval Architecture, Ocean and Marine Engineering,  
University of Strathclyde, 100 Montrose Street, Glasgow G4 0LZ, UK

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

---

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi  
School of Engineering, The UWA Oceans Institute, The University of  
Western Australia, Perth, WA 6009, Australia

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei  
Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean  
Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 15.6 days after  
submission; acceptance to publication is undertaken in 1.9  
days (median values for papers published in this journal in  
the first half of 2025).
