

## Special Issue

# Advances in Marine Dissolved Organic Matter Dynamics

### Message from the Guest Editors

Marine dissolved organic matter (DOM) is one of the largest reservoirs of carbon on the planet and represents the main source of energy for heterotrophic prokaryotes. Containing as much carbon as the atmosphere and having a great ecological significance, DOM plays a key role in regulating air-sea CO<sub>2</sub> exchanges and oceanic carbon sequestration that, ultimately, controls the Earth's climate. This Special Issue aims at publishing the most exciting research with respect to in-field, laboratory, biogeochemical modeling, and space-based studies that can help to understand where we are and how we go further in the knowledge of marine DOM. Multiplatform observations and studies on DOM-microbe interactions are welcomed.

Investigations both at the global as well as at the regional scale are encouraged.

---

### Guest Editors

Dr. Chiara Santinelli

Biophysics Institute, National Research Council (CNR), Pisa, Italy

Dr. Emanuele Organelli

Institute of Marine Sciences, National Research Council (CNR), Rome, Italy

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

---

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi  
School of Engineering, The UWA Oceans Institute, The University of  
Western Australia, Perth, WA 6009, Australia

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei  
Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean  
Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 16.5 days after  
submission; acceptance to publication is undertaken in 2.5  
days (median values for papers published in this journal in  
the second half of 2025).
