

Special Issue

Novel Technologies and Solutions for Coastal Evolution and Management

Message from the Guest Editors

In recent years, several novel technologies have emerged whose roles can be crucial to better understand the processes acting on coastal areas. These include pervasive monitoring systems based on the Internet of Things paradigm as well as remote sensing techniques exploiting drones, and Surface and Underwater vehicles. All these technologies are leading to a more accurate definition of coastal processes. The purpose of the Special Issue is to publish the most interesting and innovative research about the proposed subjects, providing short turn-around time regarding reviewing and publishing. High-quality papers related to one of the following topics will be taken into consideration for publication.

- Coastal zone management
- Sediment transport
- Nearshore processes
- Effects of coastal protection structures
- Case studies about best practice implementation
- Remote sensing for coastal areas
- Internet of Things architectures for coastal areas
- Drones and vehicles for coastal monitoring
- Sediment tracing techniques and technologies
- Data analysis tools for coast management

Guest Editors

Dr. Duccio Bertoni

Department of Earth Sciences, University of Pisa, 56126 Pisa, Italy

Dr. Alessandro Pozzebon

Department of Information Engineering, University of Padova, 35131 Padova, Italy

Deadline for manuscript submissions

closed (10 April 2022)

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

Oceans Graduate School and The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
