

Special Issue

Coastal Systems: Monitoring, Protection and Adaptation Approaches

Message from the Guest Editors

Coasts are dynamic and fast-changing environments. They are areas of unique natural importance, providing important natural habitats for flora and fauna and home to more than 40% of the global human population. Because of their rich resources, they are more densely populated than the hinterland and exhibit higher rates of population growth and urbanisation. Over millennia, changes in relative sea level, geomorphological processes and extreme events such as storms, hurricanes and tsunamis have shaped and changed the earth's coastlines. Although coastal areas are naturally dynamic, and climate change is considered responsible for many impacts over the long term, a number of other factors, such as human interventions, sediment supply from fluvial systems, etc., also contribute significantly. Therefore, a systems approach is necessary to understand the adaptation challenge. This Special Issue invites researchers and scientists involved in related studies to come forward with their research and present their findings.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
