

Special Issue

Responses of Coral Reefs to Climate Change

Message from the Guest Editors

The *Journal of Marine Science and Engineering* is about to launch a Special Issue dedicated to Responses of Coral Reefs to Climate Change. Coral reefs have immense biological wealth and provide economic and environmental services (e.g., tourism, fisheries, wave protection) for millions of people; however, reefs throughout the world are undergoing significant ecological change due to climate change. This Special Issue will focus on understanding the impacts of climate changes on corals and coral reefs. We welcome topics that cover climate change impacts on the ecology, physiology, and biodiversity of coral reefs. We also welcome articles focused on mitigation strategies, applied research, and adaptive research, as well as socioeconomic linkages between humans and coral reefs.

Guest Editors

Dr. Keisha Bahr

Department of Life Sciences, Texas A&M University-Corpus Christi,
Corpus Christi, TX, USA

Dr. Heather Page

Sea Education Association, Woods Hole, MA, USA

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
