

Special Issue

Selected Papers from the Spanish Days of Ports and Coasts

Message from the Guest Editor

The 15th conference of Spanish Days of Ports and Coasts Engineering provides a stimulating and enriching forum for coastal engineers and scientists to discuss the latest developments in marine and coastal technology, combining practical application with technological and scientific achievements, on the following conference themes: Wave climate and physical oceanography; Environment, discharges, and coastal water quality; Coastal, harbor, and offshore structures; Coastal processes and shore protection; Integrated coastal management; Climate change and coastal flood and erosion risk; Port planning and management; Marine spatial planning and European marine strategy. This Special Issue presents a selection of papers from the conference. The papers give insight into the theoretical and practical aspects related to coastal and ocean engineering. Coastal and ocean structures, breakwaters, revetments, coastal field measurement and monitoring, combined physical and numerical modelling, port planning and management, integrated coastal management, climate change, tsunamis, and coastal hydrodynamics are the main topics covered in this Special Issue.

Guest Editor

Dr. María Esther Gómez-Martín

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
