Feature Reviews in Marine Science and Engineering

Message from the Guest Editors

In 2020, we are celebrating the recent successes of our *Journal of Marine Science and Engineering (JMSE)*. Established in 2013, over 1100 papers have been published, including 216 in the first three months of this year. In 2018 we received our first impact factor (IF) of 1.732, and will receive our 2019 IF in June. Of course, this success would not have been possible without the support of our authors, peer reviewers, editorial teams, and not least, our readership. To all, we extend a sincere thank you. We are marking this success with a Special Issue entitled “Feature Reviews in Marine Science and Engineering”. All types of high-quality review, covering topics within the scope of *JMSE*, will be considered. We kindly encourage colleagues to participate in this Special Issue.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.
