

Special Issue

Understanding Impacts of Marine Renewable Energy Structures on Nearshore Dynamics and/or the Environment

Message from the Guest Editor

The purpose of the invited Special Issue is to publish the most exciting research with respect to the above subject (see also topics and keywords below) and to aim for a rapid turnaround time regarding reviewing and publishing. The published articles can be disseminated freely for research, teaching, and reference purposes. High-quality papers are encouraged, for publication, directly related to various aspects of wave and tidal energy production, for instance:

- Effects on sediment transport processes and coastal erosion
- Assessment methods and analytical techniques for resource and impact assessment
- Monitoring technology and strategies
- Numerical and physical modelling
- Seabed–structure interaction
- Effects on flora and fauna
- Case studies

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
