

Special Issue

Innovative Methodologies and Intelligent Tools for Coastal and Marine Environmental Monitoring

Message from the Guest Editors

This Special Issue also aims to highlight the re-utilization of waste materials, especially microplastic sea-side wastes. Presently, a rapidly growing concern for environmental protection and resource utilization has stimulated many new activities for coping with urgent environmental problems created by the steadily increasing consumption of industrial products. Increasingly stringent regulations and widely expressed public concern for the environment highlight the importance of disposing of solid waste generated from industrial and consumable products. Efficiently tackling this problem is a very important issue all over the world. Papers will be included on the design and realization of experimental innovative solutions linked to experience with materials for collecting, weighing solid waste, and recycling of plastic material.

Guest Editors

Prof. Dr. Chrysostomos Stylios

Dr. Carola Esposito Corcione

Dr. George D. Bathrellos

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
