Special Issue

Advanced Research in Innovative Ship Energy Systems

Message from the Guest Editors

This Special Issue provides a platform for academia and industry to exchange the most contemporary ideas, techniques, methods, and experiences in shipping energy systems. Specifically, we are looking for research contributions that address the environmental impact of proposed technologies, the role of regulatory bodies in decarbonisation, and the sustainability of the shipbuilding industry. This Special Issue focuses on the intersection between energy systems design, modelling, and optimisation to address climate change prevention and mitigation. We invite all the interested authors to submit novel/original studies and reviews that advance the scientific/technical understanding of the addressed topics.

Message from the Editor-in-Chief

The Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
