

Special Issue

Frontiers in Marine Microbiological Research

Message from the Guest Editors

This Special Issue will mainly present review articles and research papers. The topics include: 1. Resources, biodiversity and distributions of marine bacteria, marine actinomyces, and marine-derived fungi and yeasts; 2. Their ecological functions in marine environments; 3. Their genomes and genome editing techniques; 4. Their metabolites and potential applications; 5. The genetics, synthetic pathways, and regulation of their metabolites.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312)* is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
