

Special Issue

Marine Microplastic

Message from the Guest Editor

Microplastics have received worldwide attention in recent years due to their ubiquitous presence, trans-boundary pollution, and potential negative effects on living organisms, both in the ocean and on land. This Special Issue calls for papers focusing on recent research results on the analytical method, distribution, source, transfer, degradation, biotoxicity, simulation modeling, cleanup, and countermeasures of marine microplastics. Since microplastics can concentrate other pollutants, research on combined toxic effects of microplastics and their adsorbed pollutants are welcomed. As a non-negligible source of marine microplastics, wastewater research is encouraged. You may present your research on both micro- and nanosized plastics, and we highly encourage novel techniques. It is my pleasure to invite you to submit to this Special Issue on Marine Microplastic research. I sincerely hope the published papers will facilitate better knowledge sharing and build stronger collaborations.

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
