

Special Issue

Maritime Engineering, Industry Development Prospects

Message from the Guest Editor

The global maritime transport industry operates according to a set of specific laws. The development of digital systems in the marine industry has resulted in the appearance of significant indicators. Today, the ship's crew is decreasing, the ship's productivity is increasing, and environmental indicators are being monitored. The development of the industry requires research in various fields of engineering, such as robotics, automation, neural networks, and ecology, amongst others. This research will significantly contribute to the development of the industry as a whole. This Special Issue provides a platform for academics, scientists, and industry professionals to exchange the most contemporary ideas, techniques, methods, and experiences in the area of ship energy systems, including modelling, optimisation, control, maintenance, safety, autonomy, environmental friendliness, regulatory framework, and sustainability.

Guest Editor

Dr. Sergei G. Chernyi

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering (JMSE, ISSN 2077-1312)* is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi
School of Engineering, The UWA Oceans Institute, The University of
Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei
Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean
Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 15.6 days after
submission; acceptance to publication is undertaken in 1.9
days (median values for papers published in this journal in
the first half of 2025).
