

# Special Issue

## Offshore Wind Farms

### Message from the Guest Editors

Offshore wind power is one of the renewable energy sources that is currently considered in the energy mix of some countries, and its use will increase in the future. At the end of 2017, there were a total of 18,814 MW of offshore wind installed worldwide, with the United Kingdom, Germany, China, Denmark and the Netherlands leading the way. The aim of this Special Issue is to put together papers that reflect the current state of the art of the offshore wind industry, covering all the aspects to be taken into account for the planning, design, construction, operation and maintenance and dismantling of the facilities, etc. This Special Issue invites contributions that deal with all the previously mentioned aspects (but is not limited to them), including the following topics: legislation, environmental, wind resources, foundations and support structures, wind turbine generators, electrical connection, etc.

## About the Journal

### Message from the Editor-in-Chief

*Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312)* focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

---

### Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

### Author Benefits

#### High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

#### Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
