

Special Issue

Safe, Secure and Sustainable Oil and Gas Drilling, Exploitation and Pipeline Transport Offshore

Message from the Guest Editors

This Special Issue is not focused only on safety in offshore oil and gas operations, but all onshore efforts are also acknowledged. All methods, computational procedures, innovations, and technologies, which can increase the production rate, safety of pipelines, usability, and efficiency are within the scope of this call for papers. So are all aspects related to the production of oil and gas and drilling, both offshore and onshore, as well as those related to an increased degree of utilization and efficiency of drilling, all safety aspects, and all aspects of security of supply. Contributions from academia, standardization and regulatory bodies, manufacturers of equipment, service and exploitation companies, and from all other types of industry are welcome.

About the Journal

Message from the Editor-in-Chief

The *Journal of Marine Science and Engineering* (JMSE, ISSN 2077-1312) is an international peer-reviewed open access journal which provides an advanced forum for studies related to marine science and engineering. The journal aims to provide scholarly research on a range of topics, including ocean engineering, chemical oceanography, physical oceanography, marine biology and marine geosciences. We invite you to publish in our journal sharing your important research findings with the global ocean community.
