

Special Issue

Frontiers in Ship and Offshore Structures

Message from the Guest Editors

Due to a number of advantages over other transportation systems, maritime industries are continuously seeing a surge in fulfilling present sea-borne transportation demands. Naval architects and ship designers are working tirelessly in collaboration with various scientists and engineers to meet the marine transportation demands through the innovation of energy efficient, cost effective but large carrying capacity vessels while keeping the emissions level low. Likewise, offshore engineers are also working hard to maintain the resilience of energy demands ensuring reliable and fully functioning offshore structures. Recent upward trends and aspirations in harvesting marine renewable energies also have contributed to a boost in offshore installations. However, the sustainability of marine sectors is very much reliant on innovations through research and development. We, therefore, encourage you to submit your high-quality research and/or review articles to this special issue.

Guest Editors

Dr. Md Jahir Rizvi

Faculty of Science and Engineering, University of Plymouth, Reynolds Building, Drake Circus, Plymouth PL4 8AA, UK

Dr. Rafet Kurt

Department of Naval Architecture, Ocean and Marine Engineering, Strathclyde University, Glasgow G4 0LZ, UK

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Journal of Marine Science and Engineering (JMSE, ISSN: 2077-1312) focuses on research in the fields of Ocean Engineering, Coastal Engineering, Physical Oceanography, Geological Oceanography, Marine Biology, and Marine Environmental Science. It publishes reviews, regular research papers, and short communications, as well as Special Issues on particular subjects. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Charitha Pattiaratchi

School of Engineering, The UWA Oceans Institute, The University of Western Australia, Perth, WA 6009, Australia

Author Benefits

High Visibility:

indexed with Scopus, SCIE (Web of Science), Ei Compendex, GeoRef, Inspec, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Marine) / CiteScore - Q2 (Ocean Engineering)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.5 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
