Message from the Guest Editor

Dear Colleagues,

To celebrate the successful launch of the Journal of Nuclear Engineering (JNE), we are devoting this Special Issue of JNE to publishing a selection of articles contributed by the Editorial Board Members (EBMs). This Special Issue aims to highlight various research accomplishments, as well as open issues, in the areas represented by the EBMs. All EBMs are invited to contribute original research articles or critical reviews, which will all be peer reviewed before acceptance for publication.
