

Special Issue

Special Issue Dedicated to 32nd Symposium on Fusion Technology—SOFT2022

Message from the Guest Editors

The SOFT, a biennial symposium on fusion technology focusing on the latest developments in fusion experiments and activities, is the most important conference in this field in Europe. The SOFT includes invited, oral and poster presentations, as well as industry and R&D exhibitions. Traditionally, the conference proceedings are published in a hybrid journal. However, the SOFT-2022 International Organizational Committee and the Local Organizational Committee have decided in conjunction to offer the participants the additional option of publishing selected papers in a fully open access journal. Therefore, we invite the SOFT-2022 participants wishing to publish their work to submit their papers to *JNE*, following the instructions for authors on the *JNE* site. A limited number of high-quality papers will be selected in a regular peer-review process for publication in this Special Issue dedicated to SOFT2022.

About the Journal

Message from the Editor-in-Chief

The Journal of *Nuclear Engineering* (JNE, ISSN 2673-4362) provides an interdisciplinary forum that showcases state-of-the-art research in the nuclear and related engineering sciences. JNE is dedicated to the scientific dissemination of rigorously peer-reviewed original research, publishing open-access full research papers, communications, and review articles. There is no restriction on the maximum length of papers, and there are no charges for extra colors. Electronic files supplying details of calculations and experimental procedures, as well as sound files, can be deposited as supplementary materials. JNE processes all submissions expeditiously and provides exceptional online visibility for the accepted manuscripts.

Editor-in-Chief

Prof. Dr. Dan Gabriel Cacuci

Department of Mechanical Engineering, University of South Carolina,
Columbia, SC 29201, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO and other databases.

Journal Rank:

CiteScore - Q2 (Engineering (miscellaneous))
