

Special Issue

Structural Mechanics in Nuclear Engineering

Message from the Guest Editor

This Special Issue seeks to provide a forum for a broad blend of high-quality academic papers in order to promote rapid communication between researchers, scientists, and engineers in the field of structural mechanics in nuclear engineering. This may include both theoretical and experimental studies that provide new information on any aspect of structural and mechanical engineering. The Editors welcome papers both on applied and innovative aspects and developments in structural mechanics in nuclear engineering. Papers submitted to this Special Issue should include in the covering letter a clear statement of the original scientific contribution of the work. It is also important to clearly define the specific problem treated with all conditions and assumptions made, and to place the contribution in relation to both the historical literature and the state of the art.

Guest Editor

Dr. Jiang Lai

School of Aeronautics and Astronautics, University of Electronic Science and Technology of China, Chengdu 611731, China

Deadline for manuscript submissions

closed (15 November 2021)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Dan Gabriel Cacuci
Department of Mechanical Engineering, University of South Carolina,
Columbia, SC 29201, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO and other databases.

Journal Rank:

CiteScore - Q2 (Engineering (miscellaneous))
