

## Special Issue

# Feature Review Papers in Nanotheranostics

### Message from the Guest Editors

We are pleased to announce this Special Issue, entitled “Feature Review Papers in Nanotheranostics”. This Special Issue will publish high-quality review papers written by either our Editorial Board Members or outside leading authors. It will provide a comprehensive overview and cutting-edge insights into the most critical and timely research areas in nanotheranostics. Topics of interest include, but are not limited to, personalized nanomedicine, imaging-guided therapy, artificial intelligence/machine learning-driven theranostics, and novel nanotheranostic platforms. It will serve as an essential resource for researchers, students, and anyone interested in this research area. We anticipate that all the published papers will be widely read and highly influential, as well as promote the most recent advances in the field.

---

### Guest Editors

Prof. Dr. Dmitri Simberg

Translational Bio-Nanosciences Laboratory, University of Colorado Anschutz Medical Campus, Aurora, CO 80045, USA

Prof. Dr. Peng Huang

Marshall Laboratory of Biomedical Engineering, International Cancer Center, Laboratory of Evolutionary Theranostics (LET), School of Biomedical Engineering, Shenzhen University Medical School, Shenzhen University, Shenzhen 518055, China

---

### Deadline for manuscript submissions

31 October 2026

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Nanotheranostics (JNT)* is an open-access, peer-reviewed international journal by MDPI providing a critical forum for the dissemination of fundamental, translational, and clinical developments in nanotheranostics. The journal considers outstanding papers on all aspects of nanotheranostics, including targeted therapies, device engineering, computational simulations, molecular imaging, and clinical reports. Manufacturing, ethical, and regulatory issues in nanotheranostics are also considered. Furthermore, *JNT* welcomes papers reporting negative results, as these contribute to advancing the field. The journal also publishes Special Issues on emerging topics that foster new ideas and research directions.

On behalf of the Editorial Board, I warmly invite you to submit your latest research and proposals for Special Issues to *JNT*, and I look forward to receiving your contributions. Together, we will build an outstanding journal.

---

### Editor-in-Chief

Prof. Dr. Seyed Moein Moghimi

1. Pharmaceutics and Nanomedicine, School of Pharmacy, Newcastle University, Newcastle upon Tyne NE1 7RU, UK
2. Translational and Clinical Research Institute, Faculty of Medical Sciences, Newcastle University, Newcastle upon Tyne NE1 7RU, UK
3. Skaggs School of Pharmacy and Pharmaceutical Sciences, University of Colorado Denver, Denver, CO 80204, USA

### Author Benefits

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 24.1 days after submission; acceptance to publication is undertaken in 4.2 days (median values for papers published in this journal in the second half of 2025).

#### Recognition of Reviewers:

APC discount vouchers, optional signed peer-review and reviewer names published annually in the journal.
