Message from the Guest Editors

Invasive fungal infections (IFIs) are regarded as diseases of medical progress. With rapid changes in clinical practice and the expanding population of immunosuppressed/immunocompromised individuals, the spectrum of fungi capable of causing IFIs is also changing and expanding. Despite therapeutic advances, fungi constitute a major group of organisms associated with hospital-acquired infections worldwide and cause considerable morbidity and mortality, particularly among hospitalized patients with several comorbidities and other underlying conditions.

In this Special Issue on ‘Medical Health Care and Human Fungi’ we will focus on articles dealing with the diagnosis, epidemiology, and pathogenesis of IFIs in susceptible patients. Articles dealing with the mechanisms of antifungal drug resistance in common and rare/emerging fungal pathogens will also be welcome.

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
