Message from the Guest Editors

Dear Colleagues,

Research focusing on the genomic analysis of yeasts has increased considerably in the past few years, being pushed by advances in high-throughput sequencing technologies, development of bioinformatic pipelines, and a better understanding of yeast ecology and diversity. In this Special Issue, we plan to gather research articles focusing on both fundamental and applied research that demonstrate the importance of yeast characterization and evolution and their application in biotechnological processes. The intensive research on yeasts now requires a careful translation to overcome the challenges of finding new isolates with improved biotechnological potential.

Dr. Ricardo Franco-Duarte

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
