

Special Issue

Fungi and Fungus-Like Protists: Biodiversity, Conservation and Sustainable Use

Message from the Guest Editors

In this Special Issue, we will cover all research studies related to the biodiversity assessment, ecological patterns, and conservation of fungi, including lichens and those previously classified as fungi, e.g. the fungus-like protists. We also look at how fungal biodiversity can be used sustainably in addressing human concerns and societal problems. Therefore, we welcome reviews and original research articles covering fungal diversity and distribution studies, conservation efforts, environmental monitoring, and the production as well as sustainable use of fungal products and processes.

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340
