

Special Issue

Plant Protection: New Green Antifungal Agents

Message from the Guest Editor

This Special Issue, entitled “Plant Protection: New Green Antifungal Agents”, aims to highlight current research on safe and effective fungicides against plant fungal diseases—especially on lead compound discovery, studies of fungicidal mechanism, and the formulation of fungicides. Experts specifically from the fields of plant protection, natural products, and advanced materials are invited to contribute their newest findings in the form of research articles, communications, or review articles, to provide a common platform for scientific communication, to deliver reliable information and to advance our understanding of the basis of new green antifungal agents against phytopathogenic fungi.

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340
Kingsland Street, Nutley, NJ 07110, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
